

<b>BIRRA PERONI</b> <b>Srl</b>		<b>ANALISI ACQUA</b>		<b>HEAD</b> <b>QUARTER</b> <b>ROMA</b>																																																																																																																																																	
Per : <u>Stabilimento di ROMA</u>																																																																																																																																																					
e p.c. : <u>Direzione di Produzione</u>																																																																																																																																																					
Campione N° : <u>15041944</u>		Provenienza : <u>STAB.TO ROMA</u>																																																																																																																																																			
Origine : <u>POZZO N° 2</u>		Consistente in : <u>N° 3 contenitori come da disposizioni</u>																																																																																																																																																			
Prelevato il : <u>16/11/2015</u>		Arrivo in laboratorio: <u>16/11/2015</u>
